TEST CASE:

Click 'see all bots' button

Description: This test will verify that the See All Bots button works

Steps:

      1. Navigate to the home page

      2. Click 'see all bots' button

Test post-conditions:

      - the entire array of bots should display on screen

SEE ALL BOTS BUG REPORT

Description: The 'see all bots' button does not display any bots

Steps:

      1. Navigate to the home page

      2. Click See all bots button

Expected Result:

      All of the bots in data.js should display in cards

Actual Result:

      No bots are displayed;

      Console Error code: 400 "ERR_BAD_REQUEST

      Node error: ERROR GETTING BOTS ReferenceError: botsArr is not defined

    at C:\Users\Rebec\Desktop\devmountain\assessment-qa-devops\server.js:27:26

Bug Fix:

      change 'Botsarr' on line 89 in server.js to 'bots'.

      - 'Botsarr' did not exist, we were destructuring bots off of data.js.
